Reads Letter From Cleveland.

Mr. Bartlett (Georgia) sent to the desk and had read a letter from ex-President Clevelsind, dated March 14, 1904, in reply to one from himself, denying certain nlegations of Thomas E. Watson, of Georgia. The letter reads:

"My Dear Mr. Bartlett.—I have received a number of inquiries similar to yours fouching upon my invitation from Fred Douglas to a wedding reception, and signing while Governor of New York of a bill providing for mixed schools.

"I do not suppose that Mr. Thomas E. Watson believed or had any reason to water the suppose of the providing to the suppose of the suppose of

York of a bill providing Schools.

"I do not suppose that Mr. Thomas E. Watson believed or had any reason to believe, either of the allegations when he made them. At any rate they are both utterly and absolutely false.

"I cannot afford to devote a great deal of time in denying such foolish tales. I shall therefore attempt to cover every phase of the subject now and for all. It so happens that I have never in my official position, either when sleeping or awakd, alive or dead, on my head or on my heals, dined, lunched or supped or invited to a wedding reception any colored man, woman or child. If, however, I had decided to do any of these things, neither the fear of Mr. Watson or any one else would have prevented me, When I was Governer, a movement was made to the Legislature to abolish separate colored schools, in New York city. I opposed the measure and it failed. I do not find that I interposed a veto, and I have forgotten the course the matter took; but I know that whatever I did whas in favor of maintaining separate colored schools, instead of having them mixed.

Southwest.

The College base-ball team leaves to-day for its annual trip through the central and western part of the State. On the trip the team will play the Virginia Milkiary Institute, Washington and Lee, Virginia Polytechile Institute, Roanoke College and Hampden-Sidney, returning Tuesday night of next week.

The team has developed greatly in the last week, and the prospects are now very bright for a winning aggregation. Couch highee deserves great creat for his work this season, for out of most unpromising material he has developed a nine which will coingire most favorably with any college team in the State. Handy at second continues to improve, and is destined to win a great name for himself in another season. Cardoza agreeably surprised the boys Saturday in his first game by allowing the visitors only three hits. He used his head well and fielded excellently. Woodin and Robertson are continuing their good work, and may always be depended on. Captain leh is playing a star game at center field, and Mench showed in Saturday's print of the continuing their good work, and may always be depended on. and fielded excellently. Woodin and Robertson are continuing their good work, and may always be depended on. Captain leh is playing a star game at center field, and Mench showed in Saturday's game that he had the qualities of a fast, sure fielder. Sutherland played an excellent game at first, and will probably hold that position for the future.

The men who leave to-day will be: Handy, second base; Robertson, third base; Woodin, short-stop; Ish, center field; Hayes, right field; Cardoza, pitcher; Mench, left field; Sutherland, first base; Lankford, catcher; Bradshaw, pitcher; Cutchins, first base; Lankford, catcher; Bradshaw, pitcher; Cutchins, first base; Miles, pitcher.

Manager Bragg, on account of his classes, has been compelled to resign his position, and Mr. Cutchins will assume the responsibility for this trip.

Dr. Foushee left last night for Rockingham, N. C., to attend the marriage of his brother. Senator H. A. Foushee, of Durham, Senator Foushee will lead to the altar Miss Annie Leake Wall, daughter of Mrs. Henry Clay Wall, of Rockingham. No Spare Room on Grounds. Every available site on the grounds of the Louisiana Purchase Exposition has been assigned, and the authorities are now bending every effort in completing arrangements that will guard against overcrowding.
